Julia M. Eckstein
Director

Matt Blunt
Governor

DATE: August 2005

TO: Administrators of Public and Private Elementary and Secondary
Schools in Missouri

FROM: Brad Hall, Chief
Prevention and Care Programs

SUBJECT: 2005-2006 Summary Report of the Immunization Status of Missouri Public, Private, or
Parochial School Children

This packet contains materials needed for completion of the annual *Summary Report of the Immunization Status of Missouri Public, Private, or Parochial School Children* (CD-31). The *Summary Report*, along with instructions, is enclosed. Although immunization records must be maintained at each public and private school for health validation purposes, only one summary report should be submitted for each school district. It is not necessary to submit a separate report for each school in the district. The *Summary Report* is to be completed and submitted to the Section for Communicable Disease Prevention by **October 15, 2005**.

Beginning with the 2005-06 school year:

Varicella vaccine has been added as a requirement for kindergarten students for the 2005-06 school year. Refer to the reverse side of the *Summary Report* for 19 CSR 20-28.010 (2) (C) and (3) (A) for details.

The statewide results from the 2004-2005 school year indicate the following information on the adequately immunized students in each vaccine category.

DTP/DTaP/DT	98.5%
Polio	99.1%
Measles	98.8%
Mumps	98.6%
Rubella	98.6%
Hepatitis B	98.3%

Thanks to your efforts, Missouri's schools have achieved excellent immunization levels. Your continued cooperation is appreciated. Should you have questions about Missouri's immunization requirements for school attendance or need assistance in completing the report, please refer to the enclosed map and contact the immunization representative in your area.
